

BRIEF SUMMARY

I am Harry Mistry, a passionate and dedicated B. Tech CSE student of Parul University. I have developed key expertise in Machine-Learning, Data Analytics, and Data Visualization. I'm deeply interested in working with data to uncover insights and solve real-world problems. Currently, I am expanding my knowledge in Generative AI and Agentic AI, staying at the forefront of emerging technologies. I am enthusiastic about collaboration and eager to make meaningful contributions in the tech industry through innovation and continuous learning.

KEY EXPERTISE

Python Data Analytics Machine Learning Java SQL Git Natural Language Processing Langchain Scikit-Learn Generative AI

EDUCATION

Parul University B.Tech. - CSE - PIT CGPA: 8.66 / 10	2022 - 2026
A B School, Navsari 12 th GSEB Percentage: 63.60 / 100	2022
A B School, Navsari 10 th GSEB Percentage: 81.50 / 100	2020

PROJECTS

Vision Closure Alert using OpenCV Team Size: 3 Key Skills: Python Machine Learning Computer Vision Firebase Data Visualization Twilio OpenCV Project Link: https://github.com/harrymistry19/Vision-Closure-Alert -Real-Time Eye Monitoring: Developed a robust system using OpenCV and Haar cascades to detect prolonged eye closures, ensuring safety in applications like driver fatigue monitoring. -Multi-Modal Alerts: Integrated auditory alerts, voice notifications, and SMS alerts via Twilio API for immediate response during critical situations. -User-Friendly Interface: Designed an advanced GUI with features like profile management, customizable thresholds, dark mode, and real-time analytics visualization. -Data Logging and Visualization: Integrated Firebase for event logging and implemented data visualization with export capabilities for detailed trend analysis.	20 Jul, 2024 - 08 Feb, 2025
Blinkit Sales Dashboard Mentor: Vinod Patidar Key Skills: Power BI DAX Data Cleaning Data Processing Data Visualization Project Link: https://github.com/harrymistry19/Blinkit_SalesDashboard - Designed an interactive Power BI dashboard to analyze sales of \$1.2M across 8,523 items and 141 average sales per outlet. - Performed Data Cleaning, Data Modeling, DAX Calculations to transform and process data and created various charts and graphs for Visualization. - Key insights: Tier 3 outlets contributed \$472K (39% of sales), with the highest sales from Fruits & Snacks categories (\$360K combined)	24 Nov, 2024 - 10 Dec, 2024
RAG-Based YouTube QA Web Application Key Skills: ReactJS Langchain FastAPI ChromaDB Hugging Face -Built a full-stack RAG application enabling Q&A over YouTube videos using transcript ingestion, embeddings, and vector search. -Implemented FastAPI backend with LangChain & ChromaDB, integrating GPT4All/WhisperX for local LLM inference and timestamped source citations. -Developed a responsive React frontend with real-time ingestion status, interactive chat interface, and YouTube video embedding.	

ASSESSMENTS / CERTIFICATIONS

Android App Development

Aggregate: 54 / 100

Key Skills: Kotlin Java XML Android Studio

Computer Networks and Internet Protocol

Aggregate: 79 / 100

Key Skills: Computer Networking Networking Protocol Networking Routing Protocols

Computer Networks and Internet Protocol explores how devices communicate over networks, covering topics like network topologies, IP addressing (IPv4/IPv6), routing, and core protocols (TCP, UDP, HTTP). It also includes network models (OSI/TCP-IP) and security measures to ensure reliable and secure data transmission

Theory of Computation

Aggregate: 60 / 100

Key Skills: Theory of Computation Automata automat

Theory of Computation explores the mathematical foundations of computing, focusing on automata theory, formal languages, and the limits of computation (decidability and complexity). It helps understand algorithm efficiency and the capabilities of computational systems.

SEMINARS / TRAININGS / WORKSHOPS

Gujarat Tableau User Group Institute Name: Parul Institute of Technology, Vadodara

20 Dec, 2024 - 28 Dec, 2024

Key Skills: Tableau Mathematics Statistics DBMS

The "Gujarat Tableau User Group" workshop, mentored by Devanshu Tayal, provided a comprehensive introduction to Tableau, a leading data visualization tool. Participants explored its powerful features for creating dynamic dashboards and actionable insights. The session emphasized practical learning, equipping attendees with valuable skills for analyzing and presenting data effectively.

Data Visualization using Python and Tableau

10 Feb, 2024 - 12 Apr, 2024

Institute Name: Parul Institute of Technology, Vadodara

Key Skills: Python Power BI Tableau Machine Learning

The "Data Visualization using Python and Tableau" workshop, guided by mentor Gaurav Ameta, provided hands-on insights into creating impactful visualizations. The session focused on leveraging Python and Tableau to explore, analyze, and present data effectively, enhancing analytical and storytelling skills.

CO-CURRICULAR ACTIVITIES

- Participated in AI/ML Hackathon 1.0.
- Participated in PU Code Hackathon 2.0.

PERSONAL INTERESTS / HOBBIES

- Exploring various AI tools and technologies to understand their capabilities, applications, and impact on different industries.
- I am also passionate about dance
